PROFESSIONAL SUMMARY

WHAT I DO	Customer Facing · Legacy Estate Exit · Cloud Migration · Agentic AI & RAGOps · RegTech (BCBS 239 · SFDR)
WHERE I DO	Tier-1 European Banks · Regulated Enterprises · AWS · Databricks · Snowflake
HOW I DO	Automation via AI · Forward-Deploy · Context Engineering · Partner/MarketOps Uplift · Insight-Led Proposals
MY EDGE	Semantic-First Architecture · Technical Storytelling · Presales Content & Messaging · Active GitHub Contributor

CORE STRENGTHS

Large Scale Modernization · Complex Deal Navigation · Presales & Growth Leadership · Market & Partner Positioning · Solution Selling & RFX/SOW · Partner Funding · Context Engineering · Semantic Layer Design · EU Compliance/ Regulations

PROFESSIONAL EXPERIENCE

Principal Architect · Impetus Technologies · Leading UK/EU Presales & Growth · [Dec 2009 – Present](#)

- ▶ Lead EMEA presales across cloud modernisation, data engineering, and Agentic AI; built and mentor a presales team of 3 FTE across proposal, solutioning, and GTM functions
- ▶ Founding leader of Impetus' Context Engineering offering—shaping the proposition from research and thought leadership through board-level positioning, partner ecosystem development, prospect storytelling, and delivery leadership
- ▶ Closed \$12M in new business over 30 months with \$4M recurring revenue pipeline across cloud migration and data modernisation engagements
- ▶ Delivered marquee wins at Barclays (BCBS 239 · Netezza/Informatica → Databricks · data lineage), Danske Bank (SAS/Mainframe → Databricks), and Swisscom (Teradata/Informatica modernisation) in last two years
- ▶ EMEA GTM lead for Impetus' Context Engineering initiative — driving semantic layer, RAGOps, and multi-agent AI propositions into Tier-1 European banks
- ▶ Secured and governed partner funding programmes across AWS MAP, Databricks DCIF, and Microsoft ECIF; active co-sell contributor across all three ecosystems
- ▶ Partners with product and engineering as forward-deploy voice of the customer — ensuring solutions are shaped around real buyer needs, not internal assumptions

Technical Lead · Tavant Technologies [Oct 2008 – Dec 2009](#)

- ▶ Delivered set-top box advertisement platform for a DVR company

Senior Software Engineer · Impetus Technologies [Mar 2005 – Oct 2008](#)

- ▶ Designed carrier-grade DNS solutions for internet telephony and number portability

Software Engineer · Sunup Digital Systems (acq. Motorola Mobility) [Sep 2004 – Feb 2005](#)

- ▶ Developed broadcasting domain asset management and customer billing platform

EDUCATION

B.E. Information Technology · CCS University · First Division · 2003

SKILLS	
Legacy Modernisation	SAS · Mainframe/COBOL/JCL · Teradata · Netezza · Oracle · Informatica · DataStage · Alteryx · Talend · ODI
Context Engineering	Semantic Layers · RAGOps · Knowledge Graphs · Agentic AI · LangChain · Vector Databases
Cloud & Data Platforms	AWS · Databricks · Snowflake · Spark · Redshift · Glue
Architecture & Presales	TOGAF · Solution Architecture · Agentic Architecture · RFP/RFI/SOW · C/C++ · Python · Scala · Java
Partner & GTM	AWS MAP · Databricks DCIF · Microsoft ECIF · Co-Sell · MarketOps · PartnerOps

CERTIFICATIONS
TOGAF Certified · AWS Solutions Architect · Databricks Migration · Azure Fundamentals · APMP Member
